VEGETABLE PREPARATION MACHINES

CL 55 • CL 60 • CL 60 V.V.

RESTAURANTS - INSTITUTIONS - DELICATESSENS - CATERERS

CL 60 Automatic

* Except for feed-head base made in aluminium

- The Automatic feed-head combines an **outstanding cut quality** with **high output** (perfect balance between the shape of the hopper, the rotary speed and the surface of cutting disc).
- This head is ideal for **grated carrots** and **sliced or diced potatoes** for example. It has been conceived for all types of cut with the **exception of slicing of long products, processing fragile products or products that are too large for the feed hopper.**
- **Stainless steel feeding tray** designed to facilitate continuous supply into the machine.
- Recommended from 300 to 3000 covers and more.

- All parts in contact with food made from **stainless steel**.
- Heavy duty construction for **intensive use**.
- **Tilting of the heads** in the line of the motor base to guarantee space saving design and greater user comfort.
- Two speeds **375 rpm or 750 rpm** to guarantee perfect results and fast processing.
- Thanks to a simple design, all parts in food contact (for both models) **can be easily dismantled** without tools for **perfect hygiene**.
- Its **compact size**, the **wheels** and **handle** make the machine very easy to move.
- **Magnetic safety system** prevents any access to moving parts whatever head is in use.

CL 60 Pusher feed-head

- **New pusher feed head** (area : 227 cm²) designed for large vegetables processing with a **feed tube** (Ø 58 mm) **included** for long or fragile vegetables processing.
- The lever mounted on the feed-head has been designed for **ease of operation** and **minimum effort** on the part of the operator.
- **Automatic restart of the machine** with the pusher for better user comfort and a bigger output.
- The full size opening of the pusher feed-head minimizes the pre-cutting actions of vegetables for **time saving** and **better output**.
- Recommended from 300 to 400 covers and more.

VEGETABLE PREPARATION MACHINES

FLOOR MODELS

The Products "Plus"

Processing capacity :

- Large hopper feed head (area : 227 cm²) for large vegetables processing and an automatic feed head for continuous feeding.
- Powerful motor which guarantees large outputs (up to 900 kg/h).

Wide range of cut :

- Complete selection of 46 discs for slicing, grating, julienne, dicing and making French Fries.
- 4 different type of feed heads to guarantee a wide variety of tasks.

Simple and robust design :

- Mainly stainless steel for easy cleaning and a longer life.
- Parts in food contact are easy to dismantle and clean.

Number of covers :
up to 3000.

Target : For Hospitals & Institutions, Hotels, C P U's and Food Manufacture's.

In brief :

- **High performance, robust, easy to clean and maintain**, simple to use and versatile. Quite simply incomparable.

Operating time

up to 700 kg/h *

Processing time

up to 15 kg/mn *

Number of covers

100 to 1000 + *

CL 55

CL 60 • CL 60 V.V. (Variable Speed)

up to 900 kg/h *

up to 30 kg/mn *

300 to 3000 + *

* Depending on type of cut and head selected.

OPTIONAL ATTACHMENTS

4 Straight holes feed-head for CL55-CL60

- Designed for the preparation of long vegetables in large outputs.
- Diameters of the tubes : 2 tubes of 50 mm and 2 tubes of 70 mm

CL55 feeding tray

- Available in order to facilitate the loading of the vegetables in the pusher feed-head.

Half moon feed head CL55

- Area : 121 cm².
- Automatic restart of the machine with the pusher.

Straight hole feed-head CL60

- Designed for the preparation of **long vegetables** like carrots, cucumbers, leeks etc..., or **fragile fruit and vegetables** such as mushrooms, etc...

Straight and inclined hole feed-head CL55 - CL60

- Designed for the preparation of long vegetables and biaised cut.
- This head is equipped with an hole and pusher Ø 75 mm, one insert and pusher Ø 50 mm.

CL 60 stainless steel trolley

- Two stainless steel trolleys with locking wheels designed for 2 x 1 or 1 x 1 standard size containers..

CL 60 V.V. Variable Speed

- The CL60 V.V. variable speed allows a more accurate cut quality thanks to a speed range between **100 to 1000 rpm**. Consequently, a very precise **speed** can be selected according to the **type of cut** and **texture** of the **fruit or vegetable** to be processed.
- This guarantees an **optimum cut quality**, particularly when processing fragile products such as tomatoes or mushrooms and will **satisfy** even the **most demanding professionals**.
- As a standard, the CL60 V.V. variable speed is equipped with a stainless steel **automatic feed head**. Optional hoppers available are pusher feed-head or hole feed-heads.

CL 55 Automatic

- The CL55 model can be fitted with an **automatic feed-head** for **volume processing and cut quality**.
- The design of the **automatic feed-head** has been reviewed in order to give to the end-user a **larger introduction capacity and therefore bigger outputs**.
- The Automatic feed-head is ideal for **slicing delicate vegetables** such as mushrooms, tomatoes, **grating carrots**, **dicing potatoes** and cutting **French fries** to mention but a few of its use.
- **All stainless steel head** for easy cleaning and hygiene.

- **2 speeds for all models except for 380/60/3, 220/60/3 and single phase models.**
- Recommended from **100 to 1000 covers.**
- Operating time : up to **700 kg/h.**
- The optional **Stainless Steel mobile stand** gives the perfect operating height and accepts standard size gastronorm containers allowing you to prepare large quantity's with the minimum of fuss.
- **New blade contour** now gives an even **smoother, more durable cut.**
- Available with three phase or single phase powered motor.

CL 55 Pusher feed-head

- **Robust construction** for commercial use.
- This model is equipped with a **pusher feed-head** (area : 227 cm²) including a feed tube (Ø 58 mm) and a stainless steel movable stand.
- The **full size opening head** has been specially designed for bulky vegetables such as cabbage or lettuce.
- The tube is used for **continuous feeding** of long or fragile fruit or vegetables.
- The shape of the pusher has been conceived for a better **use comfort** and for **fast processing**.
